HEALTH! HEALTH! HEALTH!

Health Restored and Life Prolonged to Suffering Humanity by the most wonderful agents ever discovered.

DR. MYERS' GALVANIC CHAIR.

Galvanism, Electro-Magnetism, and other forms of electricity are now extensively employed in the best institutions of the world with the most flattering results. This chair is one of my own inventions. And one of the best constructed Electrical Machines in use, with every necessary appliance for the treatment of various diseases. The patient receives an unpleasant shock, but a pleasant, soothing and steadily current, which permeates the whole system like "balm." This chair is so constructed that I can use Electricity, Medicated or Vapor Baths, which cleanses the skin and opens the pores, thereby relieving congestion and assisting nature to remove impurities from the blood, thereby producing that cleanliness so near to godliness, and the parent of the health. It has been proven that disease in the skin, if not cleansed, is sent to the blood, and the pores of the skin must be kept open for the escape of impurities, or else disease and early death are sure to follow. With my chair I can sweat the most delicate invalid every day, and give them strength from each application. I do away with all nauseous drugs and poisons, and the oppressive sensations of heat and shock, rendering the treatment pleasant and delightful. I equalize the circulation and tone and strengthen the nerves of the patient more effectually than all the nervous medicines of the world, and at the same time I build up the various vital organs. In fact, the whole system receives a thorough toning up. I make no pretense to go more a cure, but from the non-medicinal nature of my treatments there is no danger of any bad effects following. I have cured hundreds of cases supposed to be incurable, and with one or two treatments have given the most perfect relief. I have cured many into sensibles over the beneficial effects I may treatment. I oppose no other system, but claim my treatment is the most thorough, scientific, effective, and speedy known to the world for the cure of all chronic and lingering diseases. I have many hundreds of testimonials in my possession from those I have cured, and to all inquirers I refer to them

ENLARGED SHEET.

SUNDAY, DECEMBER 7, 1884.

The Duty of the Hour.

It is a wise provision of all Christian civilization that duties must ever keep pace with honors won.

The man who conquers difficulties and grasps success even in the face of defeat has laid upon him the duty of striving to show himself worthy of the position attained and to deserve something better still. The party that places itself in the vanguard of progress, that fights its battles for freedom and for humanity, has given hostage that it will always select its best and brainiest men to represent it both in counsel and in action.

The nation that carves out its own destiny with the glittering sword of justice and in the name of liberty, and like our glorious country takes its stand at the very head of all of the nations of the earth, must ever heed as its highest duty the obligations it owes to maintain the liberty and equal rights of the humblest with those of the highest citizen before the law. The Republican party of Los Angeles is standing face to face with a great duty born of the splendid victory that it has won. The people of this imperial county have entrusted it with the direction of their public business for at least two years to come. The city of Los Angeles, the brightest, busiest and most prosperous city on the Pacific Coast, if not on the continent, has likewise dismissed the Democratic and called into power the Republican party on its pica that it could do the people's business in a more efficient and a more economical manner. Its supreme duty now is to see that the plunderers and camp-followers are relegated to the rear and that only clean, competent and honest men are called into the service of the public. The Democratic party did not lose power because it lacked either able or honest members, for there are hosts of talented and right-minded men in that party here; but it lost the confidence of the great public because it often selected its weakest, instead its strongest, of men for positions of trust, of profit, and of honor. Is the Republican party of this city and county strong enough and wise enough to still further justify the good opinions that it has already won? Representing 65,000 people in this great county, and an assessment roll of over $28,000,000, the party that can win and keep the confidence of a community as intelligent and enterprising as ours may well be proud of such success.

With over 30,000 people in this busy city, and more coming, what do we need? What do we not need?

A comprehensive system of sewerage is imperatively demanded on account of public health. An adequate and economical supply of pure water is an absolute necessity.

Streets laid out, graded and paved are necessary to our continued growth as a metropolis. We need good public buildings almost more than all, and until we get them must be content to be regarded as an overgrown village. We want a police force composed of officers of experience, ability and integrity, who will guard the property and lives of our citizens and maintain peace and good order.

Will the first Republican Council of Los Angeles, soon to organize, meet the just expectations of the people in these matters? Let them fall in any particular to afford the needed relief—let them but mix in their deliberations any evidence of even the smallest self-seeking, and the public confidence that they now enjoy will be lost to them as quickly as it was won. Let them select such men for office that they can point to them with pride as representative of progressive Los Angeles. No place should be assigned to a person just because his friends say that he is poor and needs the salary. The only test should be "Is he competent?" "Is he honest?" "Will he serve with credit to himself and to the people?" We can not afford to try experiments now. The party is in a large sense on trial for its life, and the people will discard it as promptly as they called it into power, if there is any trickery or trading by which unfit men get into places of profit and trust. We have an abiding faith in the future of this city, and we believe that the municipal government just coming into power will make the years 1885-6 the most notable in our rapid and substantial growth. Could even the eye of faith penetrate the future and look upon Los Angeles fifty years from to-day, what an inspiring sight it would behold.

Let the remembrance of the possibilities of our beautiful City of the Angels inspire us all to nobler action and more unselfish labor for the little good that we each may do.

TEXAS were never more perfect days than these mid-winter ones that we are enjoying in this latitude. They are days in which to learn the best lessons of content. Without storm or cloud or any unpleasant extremes of temperature, the year is passing, bringing to us no signs of its closing, save its shortening days. It is like the going out of a good man's life, which, with work all done, passes in calm and sunshine into the new year of immortality.

ROBERT INGERSOLL elevates himself and gives voice to Hendricks' idea of civil service reform in the following concise utterance: "The Democratic dog is too old to learn new tricks. He's after meat—not morals." Jess so, Bob! too true! too true!

POSTOFFICE fights are waxing hot all over the country, based upon the old Democratic idea of reform "To the victors belong the spoils," especially if the victors are Democrats.

Democratic Love for the Colored Man.

The Democratic love for the colored man seems to be coming to the surface, and is evinced in the contentions that have already arisen among the Bourbon organizations in Washington, who are anxious to have the management of the job of inaugurating Cleveland. Already the question has arisen among them as to whether the colored man shall be allowed to participate in the exercises of inauguration day and march in the procession with the noble Democratic white man. The protests against his admission are very determined, and probably the color prejudice will prove strong enough to prevent the black man from having any participation in the Democratic jubilee. Some of the more outspoken Democrats have asserted that "in a Democratic jubilee the colored brother would be out of place." This is simon pure Democratic doctrine such as belonged to the days antedating the citizenship of the black man—when he was the chattel of the lordly and arrogant Bourbon. Southern Democracy has not yet advanced sufficiently to recognize the manhood of the colored citizen, although it is eager enough to capture his vote and to use it to secure political supremacy. Here the love of the Democratic party for the colored man begins and ends.

NEIGHBORHOOD NEWS.

WILMINGTON.

WILMINGTON, Dec. 6.—Business is improving since our last communication. Several new buildings are going up, mostly in the neighborhood of the German Colony, and a good-sized schooner is unloading lumber at the Wilmington wharf. The number of ships in the outer bay has increased to five and more are coming, which gives a promising outlook for the winter.

Thanksgiving passed quietly here, so they say. Your correspondent took his turkey in Anaheim, so cannot speak from observation.

One of the saloons has given way to a tailoring establishment, and another is to be sold out by the Sheriff next Monday.

Mrs. Moore has moved her boarding house across the road into the "Commercial Restaurant" recently vacated by Raphael Foggi.

Tommy Thompson has disposed of his interest in the "Sea Foam" concern, and will doubtless engage in some other business in connection with his office as constable, to which position he was recently elected.

Mr. Frank Coffin was in town night before last looking hale and hearty after his eastern trip. He left his bride in Los Angeles, much to the disappointment of his many friends here.

Billy Howe, a veteran of the late war, has gone into quarters for the remainder of his natural life, provided by the Grand Army of the Republic. He is an old man and has been in feeble health for some time.

John Hickman, another old timer, is very sick and his recovery is extremely doubtful. One by one the old men are departing. We miss a number of familiar faces among the best known habitues of our streets and public resorts during the past few months.

The new Presbyterian pastor has arrived and taken rooms at the Bay View Hotel.

Two Christmas trees are being provided for, one for the Presbyterian, and the other for the Episcopal Sunday school.

Mr. B. F. Vantress and family are moving back to Los Angeles after a two years residence here. Mr. V., who is also remarkable, is about to form a copartnership in a building company in the city.

These heavy fogs are keeping the vegetation, started by the late rain, in good condition.

The Times is to be congratulated upon its last Thursday's edition which contained so much valuable matter illustrative of resources and attractions of this most favored portion of the "footstool." SUN.

SANTA ANA.

Correspondence of the TIMES.

SANTA ANA, Cal., Dec. 4.—The dense fog cloud that has been hanging over this valley for the past two weeks disappeared last night and to-day we have again bright and beautiful sunshine. The continuance and density of the fog that has prevailed here surpasses the knowledge of the oldest inhabitant. Can it be typical of the incoming National administration? We hope not.

Strangers are quite plentiful in our midst, whether for pleasure or investment has not yet been fully discovered, but doubtless many of them have come to stay, as all new-comers like the Santa Ana valley.

The wineries have closed for the season. Raisinmakers will finish their work in a week or two. The raisin product of this valley will not be near as great this season as last, as many got discouraged from last years low prices and either sold their crop of grapes to shippers or to wineries. Farmers are busy gathering their heavy corn crop and pea-nut crop, the latter of which is being grown quite extensively this year in our valley. Orchardists have been for some time washing their orange trees and fighting the pests that are threatening such a nuisance to fruit trees. New houses are quite numerous in town and country showing that mechanics have not lacked for employment.

The fine residences of Mr. Halesworth and Mr. Gary Smith are nearly completed. When finished they will be ornaments to our town and a credit to their builders.

Rev. Mr. Rigby of Topeka, Kansas, has for the past week been visiting the family of Mr. Franklin.

There seems to be quite a religious awakening in the Baptist and Southern Methodist Churches of this place. Some fifteen or more have been converted as the result of the meeting at the Baptist Church and quite a number of professions at the other church. The meetings are largely attended and a deep interest is pervading the entire community.

Rumor has it that we are to have a cannery located in our midst. A gentleman of means is here looking over the ground. I understand he expects soon to commence the erection of buildings suitable for the enterprise. There is no doubt that a cannery can be made to pay a good per cent. on the investment if rightly managed, for there are a great many apricot, pear and other orchards just beginning to bear good crops. There will be no lack of fruit in a fruit season, and that too of a good quality. Captain Jennings, a resident of Fourth street, has a kind of raspberry that bears from July till Christmas. I have just partaken of a dish of them and find them of a most delicious flavor and as palatable as if eaten in July. The Captain is certainly a decided success in producing fine berries and large sweet potatoes. NEWTON.

GARDEN GROVE.

GARDEN GROVE, December 2.—Oh! these fogs, these deplorable fogs. How they shiver and shrink and chill we poor mortals that dwell in this wonderful clime, yet with sunshine can no'er get our fill. The eaves drip, the trees scatter moisture, and we try in vain to peer through the thickness, that the morning may not pass with no knowledge of our next door neighbor's transactions.

Calvin Hough is just recovering from an injury received in falling from a load of corn, yet rejoices in one hundred bushels to the acre of the aforesaid cereal.

Mr. Richmond of Kane county, Illinois, has been spending a few days with friends of the olden time, but returned to Los Angeles on Saturday, where he and wife purpose remaining for a year with a daughter who resides on Boyle Heights.

Mr. Conway and family, late arrivals from Kansas, are now occupying the house of Nelson Smith.

Mrs. S. King's sons are building a substantial addition to her present home.

The Misses McKelvey, of Los Angeles, spent Thanksgiving week with their parents at the Grove.

Thanksgiving day in our midst produced not only the usual amount of family gatherings and dinners that distress, but a genuine sensation in the form of a wedding at the church, where at 3 o'clock, in the presence of a goodly number, J. W. Young and Mary J. Mills were united in marriage by Rev. W. G. Adams, of Orange. KENT.

A TEN-ACRE FARM.

Figures Showing What Can be Done on that Area.

A gentleman from Colorado, writing for the Rural Californian, has the following to say about the profits of a ten-acre farm in Los Angeles county. The first year he lived here he rented a farm, from which he made over $1,000. This he invested in a ten-acre farm, as he calls it, and $100 for a barn, 16x30 feet, as well as sufficient fencing, young trees for the orchard, cuttings for the vineyard, a horse and wagon, tools, two cows, twenty-five chickens and a 12-foot well. The tract was especially selected with regard to good soil and abundance of water for irrigation. He says "I put out mulberry and walnut trees along the lines of the road. The berries are excellent for chickens and the tops make good feed. I put out three acres in raisin grapes, mostly of the Seedless Sultana; one acre in deciduous trees of all kinds adapted to this locality for family use; allotted one acre to house and barn, which I put out in shade trees, both ornamental and useful; three acres in alfalfa, and half an acre in strawberries and blackberries. That left me one and a half acres to cultivate. One acre I sowed in wheat, harvested it and planted it in corn, of which I raised two good crops for the chickens. The half acre that was left I put into vegetables for family and market."

The cows had an abundance of alfalfa the whole year, green feed all the time. The cows and chickens paid better the second year. "We raised nearly 100 pullets, and part of them are now laying, and the rest will soon commence to lay. We have been selling twenty dozen of eggs per week for some time back. They sell at 40 cents a dozen. The lowest we sold eggs was 25 cents a dozen, for a month or so last spring. The two cows are paying better than hitherto, because when I bought them one was farrow. She had a calf last October. The other one gave but little milk until last May. We now get four eight-quart pailfuls a day, and after using all the cream and butter we want, sell from twelve to fourteen pounds of butter per week at 40 cents a pound. Our chickens are a mixed breed, Brown Leghorn predominating. Our chickens roost in a house that protects them from draughts and storms. They have plenty of nests made for them, such as they like, with a China nest egg. Their house is cleaned every week, and swept as carefully as a house floor. The floor is dirt, made hard and smooth, and being plastered all over the bottom, then dried. The henhouse is whitewashed every time it is cleaned, or sprinkled all over (nest also) with lime-wash. I slack about four quarts of lime in a pail with boiling water, and sprinkle it all over using an old broom. We keep sour milk by them, and fresh water in their troughs. It pays me better to feed the sour milk to chickens than to pigs and calves. I feed wheat in the morning, and corn, buckwheat or oats at night. About once a week they have a cooked dinner, composed of anything we have on hand, such as potatoes, squash, apples, beets, pepper or ginger, a little sulphur, corn meal, scraps from the table, waste meat from a butcher shop—all well mixed and salted. We never have any sick chickens—that is only during the year. Their door is closed every night so that nothing can disturb them. Plaster or lime and charcoal is placed where they can help themselves. About 60 per cent. of the eggs we set hatched out. We sold nine dozen roosters when three-fourths grown for $4.75 a dozen; have twelve left and one hundred hens, old and young. The chickens hatched in February and March commenced laying in six or seven months, when eggs were bringing a good price. What I make from my two cows and little farm will be so much towards our building a house. Aside from what we use from the place, it costs about one dollar a day to live here. I sowed my alfalfa with barley, and cut about nine tons of barley hay; cut the alfalfa three times, getting seven and a half tons, which is considered a good yield for the first year. I planted the three-acre vineyard in potatoes; then, after plowing them out the last time, about the 10th of June, I planted squashes between the rows in every third row, so I got two fair crops from that piece. I had about twenty tons of squashes. In my one-acre orchard I sowed beets between the rows, and raised about twenty-five tons. I raised a few strawberries and had some to sell. One acre I sowed to wheat, cut it, and harvested over in corn. I had two fair crops for the chickens. They do their own threshing and shelling. The half-acre I planted in vegetables—sweet corn, tomatoes, summer squashes, melons, cucumbers, lettuce, etc. I should have mentioned while speaking of stock that I have some bees. I purchased three swarms. The increase was one swarm. We made vinegar from some of the honey, had what honey we wanted to use, and sold one hundred and fifty pounds."

He figures up the profits as follows: Total from sale of eggs, $125.57; butter, $96.88; vegetables, fruits, calves, chickens, etc., $643.45; total for the year, $866.50. This is so much cash *above the living* of himself, wife and three children. What mechanic in any town can make a better cash showing at the end of a year?

ASSIGNEE'S SALE.

I WILL SELL AT PUBLIC AUCTION ON Dec. 8, the L. G. Thompson & Co's agricultural works, Stockton, Cal., consisting of wood and iron-working machinery, buildings, etc.; also the leasehold interest in the ground the buildings now stand on. This is a splendid opportunity for any one wishing to engage in the manufacturing business. It is well located, and the late fire having burned out one of the largest planing mills in the city, makes this property more desirable. The works can be kept running constantly on outside job work. For full particulars write or call on the undersigned.

The right is reserved to reject any or all bids. Sale on the premises at 2 p. m.

BAFFLED!

One of the Most Unaccountable and Dangerous of Recent Deceits Discovered and Exposed.

There is some mysterious trouble that is attacking nearly everyone in the land with more or less violence. It seems to steal into the body like a thief in the night. Doctors cannot diagnose it. Specialists are puzzled by its symptoms. It is, indeed, a modern mystery. Like those severe and vague maladies that attack horses and prostrate nearly all the animals in the land, this subtle trouble seems to menace mankind. Many of its victims have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A strange sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load upon the stomach; sometimes a faint all-gone sensation is felt at the pit of the stomach, which food does not satisfy. The eyes grow sunken, the hands and feet feel clammy at one time and burn intensely at others. After a while a cough sets in, at first dry, but after a few months it is attended with a greyish colored expectoration. The afflicted one feels tired all the while, and sleep does not seem to afford any rest. He becomes nervous, irritable and gloomy, and has evil forebodings. There is a pallidness, a peculiar whirling sensation in the head when rising up suddenly. The bowels become costive, and then, again, outflux intensely; the skin is dry and hot at times; the blood grows thick and stagnant; the whites of the eyes become tinged with yellow; the urine is scanty and high-colored, depositing a sediment after standing. There is frequently a splitting up of the food, sometimes with a sour taste, and sometimes with a sweetish taste; this is often attended with palpitation of the heart. The vision becomes impaired, with spots before the eyes; there is a feeling of prostration and great weakness. Most of these symptoms are in turn present. It is thought that nearly one-third of our population have this disorder in its varied forms, while medical men have almost wholly mistaken its nature. Some have mistaken it for one consumption, some for another, but nearly all have failed to reach the seat of the disorder. Indeed, many physicians are afflicted with it themselves. The expe-

rience of Dr. A. G. Richards, residing at No. 493 Tremont street, Boston, is thus described by himself:

"I had all those pe...ular and painful symptoms which I have found afflicting so many of my patients, and which had so often baffled me. I knew all the commonly established remedies would be unavailing, for I had tried them o...en in the past. I therefore determined to strike out in a new path. To my infinite satisfaction I found that I was improving. The dull, stupid feeling departed, and I began to enjoy life once more. My appetite returned. My sleep was refreshing. The color of my face, which had been a sickly yellow, gradually assumed the pink tinge of health. In the course of three weeks I felt like a new man, and knew that it was wholly owing to the wonderful efficiency of Warner's Tippecanoe Tea Beat, which was the medicine I took."

Doctors and scientists often exhaust their skill and the patient dies. They try everything that has been used by, or known to, the profession, and then fail. Even if they save the life it is often after long and wretched agony. Where all this can be avoided by precaution and care, how insane a thing it is to endure such suffering! With ayure and plainable preparation within reach, to neglect its use is simply inexcusable.

People vs. Mead.

JUSTICE'S COURT—*Judge Howard.*

There was no business before this Court to-day. The following case is set for Monday:

Aaron vs. Lankershelm. Motion for change of venue.

LOCAL DASHES.

A. T. Garey rejoices in a son and heir born December 1st.

The public schools will close December 20th, and take a vacation of two weeks.

The old Presbyterian church at East Los Angeles is to be turned into a schoolhouse.

Tuesday next the proprietors of the cable road will apply to the Council for a franchise.

The term at the University of Southern California closes December 23. Vacation lasts two weeks.

The paper mill at Lynwood, near Compton, is turning out from two thousand to twenty-five hundred pounds of manilla paper a day.

The people of South Pasadena at a meeting held a night or two ago decided to purchase a lot in the Lightfoot tract and erect a schoolhouse costing $1200.

A change has been made in the postoffice here, and Special Agent James Johnson now has charge of the postal mail clerks. It is thought that the service will be greatly improved.

At the last meeting of the City Board of Education a rule was adopted that no teacher who has not taught successfully by at least a year shall be given a position in the public schools.

Every day a number of bathers enjoy the surf at Santa Monica. The temperature of the water is between sixty-two and sixty-three degrees Fahrenheit — quite comfortable for December.

Through the agency of T. E. Rowan Mr. Bradbury has purchased Keifer's lot on the intersection of Temple street and Bunker Hill avenue. Mr. Bradbury will proceed to erect a very handsome mansion.

Rifle-shooting at the Ballona and in the neighborhood of Wilmington is reported to be very good, and the sporting goods house lately opened at 57 South Spring street by Messrs. Walker & Smith is deservingly appreciated by our local sportsmen. As might be expected, the establishment is doing a lively business, everything needful in the sporting line being kept in stock.

GRANULA.

PREPARED FROM WINTER WHEAT, containing all the nutritious elements of that grain, and is the best food made or invented for adults and children. A warm cooked room, ready for immediate table use, and you will keep in a dry place for years unaltered in quality. Unequaled as diet for cases of nervous exhaustion and debility, constipation and dyspepsia. Has been tested for years by Dr. J. C. Jackson in Our Home Hygienic Institute, upon all classes of invalids, with remarkable success. It is one of the cheapest foods in use, a pound of it containing more absolute nutriment for brain and body than any equal weight of any preparation in the market.

As a food for children it is unsurpassed.

Granula is put up in neat and attractive packages of one pound each.

Price of Granula low enough to be used as a daily food.

Office, 275 North Main St., near the Diamond House, Los Angeles, Cal.

All diseases of the Head, Throat and Chest, viz: Catarrh, Tarout Diseases, Asthma, Bronchitis, Consumption, Catarrhal Deafness, Catarrhal Opthalmia and Diseases of the Heart treated by his new and improved system of Medicated Inhalations, which carry the remedying agents to the diseased parts, thereby effecting cures in many of the so-called incurable cases, the greater part of whom had not the slightest idea of ever being cured.

By method of treating diseases of the throat and lungs by our system of practice, we append the following letter from a reverend gentleman who is known by many residents of Los Angeles and all over the Northwestern and Eastern States, and because the subject of the letter is to-day living and a stout, healthy man and still residing in the State of Michigan.

CARVE DAT 'POSSUM, NIGGAH!

How Some Angelenos and Their Friends Made Merry.

Last night the establishment of Green & Winn, at the corner of First and Spring streets, was the scene of a merry gathering, the occasion being an opossum dinner given by the members of the Lincoln Club of Los Angeles. The toothsome and succulent animals were procured in New Orleans by Sam Haskens, the king porter of the Sunset route, and Abe Scott. The affair was enlivened by an orchestra of St. Elmo men, under the able leadership of A. A. Drew. Mr. Winn sang "Carve dat 'Possum," after which Charles Councellor, *Chef* of the St. Elmo, proceeded to do that very thing in the most artistic manner. The process of carving was watched by the gaping and hungry crowd of invited guests with intense interest, as many of them had never seen an opposum disposed of in true old southern style. During the carving A. A. Drew, J. Green, J. Upshur, A. Winn, O. Petelow, J. Scott and E. Burris rendered:

De Lawd, he know de niggah well;
He know de niggah by his smell,
And when de niggah baby cry,
De Lawd, he give um 'possum pie.

The invited guests then, after grace had been said, pitched in and soon made short work of Mr. 'Possum. The boys have sent for three more.

AMUSEMENTS.

GRAND OPERA HOUSE.—The performances of *Ellen Oye* yesterday afternoon and evening by the J. M. Ward combination drew only fair houses. This is to be regretted, as the play itself was rendered in a first-class manner and gave better satisfaction than any heretofore presented. During the third act last night Miss Fanny Young, who enacted the part of "Nora O'Donnell," met with a painful accident. As she attempted to come down improvised steps to the stage, her dress caught and she tripped and fell on her face, bruising her head and neck. She was removed to her hotel, where she is doing well, although not quite recovered from the shock to her nervous system. Mr. Nannary has engaged the Opera House and will shortly play Miss Louise Davenport, W. E. Sheridan, and other artists.

An Enterprise in West Los Angeles.

A new enterprise has been inaugurated in West Los Angeles by Mr. George D. Cox, late of Boston. He has divided a ten-acre tract in the well-known Howes orchard, near the University, into half-acre lots, the details of the plan appearing elsewhere. The property has long been known as among the most desirable in the vicinity of this city, and the half-acre lots afford their owners an opportunity of securing an abundance of fruit and vegetables without expense, as the soil, a rich loam, is very productive. Water is near the surface, and vegetation thrives without irrigation. The property adjoins the Santa Monica railroad and as soon as the population will justify it local trains will be run from this point to the city. There is also a probability of the Hellman-street railroad being extended to the tract in a few months. The deciduous trees and vines on the land are of the choicest varieties and will yield a handsome profit to owners. There is every probability of a thriving settlement in a short time. Mr. Cox, who is a brother of the architect of the same name in this city, has had large experience in real estate matters and between 1865 and 1873 erected 3500 buildings in Boston at an average cost of $10,000 apiece. He was a heavy sufferer in the great fire of the last named year, losing much of his property. His residence is on the tract and he proposes to make it the center of a number of beautiful homes.

The New Skating Rink.

In connection with the above enterprise the TIMES is informed that Mr. Symonds, who is well known as the builder of several church organs in this city, is one of the parties in interest, and that Mr. Chapman, who has recently arrived from the East, being another party interested, is thoroughly conversant with the business, having been for some years interested in such enterprises. The well known character of Mr. Symonds insures a management of the business which will commend itself to those interested in rational amusements, shorn of all contaminating influences. The TIMES also learns that Mr. E. R. Humphreys, the well known musician of this city, will be interested, and that the music, which it is aimed to make an important feature, will be of the highest character.

The building is being pushed rapidly, and it will be opened at an early date. The floor will be constructed upon the latest improved principles, and the skates will be of the Barney & Berry make, acknowledged by experts as the best.

The Merchants' Annual.

George E. Place & Co. have just issued a very neat and attractive little book with the above title. It contains some valuable information, list of all Federal, State, county and city officials, societies, with names of officers, meeting, churches, schools and colleges; also almanac for 1885, signal service office reports and standard time lately adopted by all railroads, and advertisements of our leading merchants. Mrs. G. C. Longley, the efficient canvasser, who collected the advertisements and information, is to be praised for her business tact in connection with the work.

State Reform Schools.

The TIMES has been favored with a copy of a pamphlet prepared by Dr. Walter Lindley of this city on the subject of "State Reform School." It is addressed to the Governor of the State and gives in brief a statement of the Objects, Methods and Results of State Reform Schools in twenty-three States of the Union. This thoughtful work on the part of Dr. Lindley will, we trust, result in the establishment of this greatly needed institution in California. Why not have two, one at Sacramento and one at Los Angeles.

Art Needlework.

Mrs. Jewell wishes to announce to her former patrons and to the public that she has just returned from New York City and Boston, and has brought with her all that is new in the line of Art Needlework, and will keep a full line of materials on hand. A cordial invitation is extended to all to call at her room, No. 75 Nadeau block, which will be open in a few days.

Senator Jones Coming.

From Mr. Scott, proprietor of the Santa Monica hotel, a TIMES reporter learned yesterday that Senator Jones has telegraphed his intention to be at Santa Monica within a week or two, his first visit since 1876. The TIMES is not yet at liberty to state the object of his visit, but its result will probably mean a number of substantial improvements which will decidedly revive the City by the Sea.

Mrs. Kasten's Case.

At 2 a. m. yesterday the jury in the case of Mrs. Kasten, charged with an attempt to murder J. E. Plater, returned a verdict of acquittal. On the first ballot they stood eight for acquittal and four for simple assault. The majority prevailed. George W. Knox and Horace Bell were counsel for Mrs. Kasten, and well sustained the defense of insanity.

Worked Pushed Forward.

Anyone visiting the O. W. Childs homestead tract to-day will be surprised at the large amount of work already done. Carriages will be in attendance at the corner of Eleventh and Main to convey visitors all over this almost fairy scene of sylvan beauty.

Burglary.

George Washington Sawyer was detected in a room yesterday in the White House, where he had no business. Officer Carpenter was called and took George to the cooler.

The Jones Case.

A post-mortem examination was held on the body of Mrs. J. J. Jones yesterday by Dr. Nadeau showed that her lungs were congested, which alone would have produced death.

Rev. Joseph Cook.

Rev. Joseph Cook, of Boston, will deliver two of his "Monday" lectures at the Episcopal church on next Thursday and Friday evenings respectively.

PERSONAL MENTION.

P. S. Beal leaves for Tucson to-day.

Rudolph F. Weyse left on Wednesday for an extended visit to New York.

Bishop Pool of the Church of England, late from Japan, is spending the winter in this city.

Mr. Keeler, a prominent citizen of St. Paul, Minnesota, is in town and has decided to locate here.

E. A. Gibbs of Fort Madison, Iowa, his son Louis Gibbs of Des Moines and another son of E. Gibbs of Chicago have all arrived in this city and located on the property purchased by them last year in East Los Angeles.

C. W. Filkins, Postmaster of Riverside and one of the owners of the flourishing town of Banning, is in the city. Mr. Filkins and the veteran Geo. C. Bryant are pushing their Banning enterprise with judgment and with success. They buy their supplies in Los Angeles.

Col. Harrison G. Otis of the TIMES, accompanied by Mrs. Otis, has gone to Iron Sulphur Springs for rest and health. During the last four months Col. Otis's labors have been very heavy, testing to the limit even his great capacity for work, and it is hoped that a short vacation will restore him to health and strength.

Magnificent styles, latest novelties in dress goods, at wonderfully low prices, only at the City of Paris, 105 and 107 N. Spring street.

In styles, quantity, quality and uniform low prices we lead. The City of Paris, the peerless dry goods emporium of Southern California.

Tapissier silks, every yard warranted, no chances taken, entire satisfaction guaranteed, all pure silk, remarkably low prices. City of Paris.

Trash! Trash! Trash! Don't buy it at any price, but purchase Tapisser silk, which looks well, wears well, and makes the heart joyful. Only at the City of Paris.

People who buy trash and the refuse of auction houses are never happy, always in a stew, never get full value, look cheap, feel cheap, and actually throw away their good money, when the same money will secure from us the finest and best goods in the market. Bear this in mind when making your purchases. City of Paris.

Talk about dry goods, fancy goods, hosiery, ribbons, neckwear, etc., we buy and sell more by a great majority than any other dry goods house in Los Angeles. Why? Because we buy goods as cheap as any one on the Pacific Coast and sell as cheap as any one dare to, and because we do not touch any trash, but first-class goods, guaranteeing entire satisfaction. City of Paris.

Duarte Fruit Growers.

A well attended meeting of the fruit growers of Duarte was held on Monday evening, the 1st inst., to organize the Duarte Horticultural and Agricultural Society. Its objects are to be the discussion of subjects connected with fruit growing, etc., also the advancement and protection of the reputation of Duarte fruit, particularly of the citrus variety.

A constitution was adopted, and the following list of officers was elected: Thos. Wardell, President; G. Whittaker, Vice-President; W. Chippendale, Secretary; J. F. Banning, Treasurer.

The Executive Committee will consist of H. S. Daniels, A. Boddy and J. O. Matthewson and also includes ex-officio, the president and secretary of the society.

It is expected that the society will prove of much advantage to the fruit growers of the vicinity.

A trade-mark for the fruit packages will be adopted and registered, and united action will be secured in matters relating to shipping and marketing fruit.

Something to be Proud of.

The remarkable and wonderful growth of this city is demonstrated to a considerable extent by the display in the center window of the leading business house in Southern California. We refer to the City of Paris, which is indeed the Peerless Dry Goods Emporium of Los Angeles. In the window above referred to are to be seen some of the most magnificent, stylish and lovely patterns of silks and velvets, plain, fancy and brocaded, which should satisfy the most fastidious lady in the land. There is no longer any necessity for ladies sending abroad for such articles, as the best looms in the world are represented by this most enterprising firm. The ladies of Los Angeles and vicinity are attesting their appreciation by keeping this immense emporium of fashion crowded from morning until night.

A Broken Leg.

From San Jose Mercury, Dec. 5.]

Dr. C. V. P. Watson, who will be remembered by many of our citizens as having practiced medicine in this city some years ago, and who has since then been located in Arizona, returned here two days ago, and since his arrival has been having a good time until yesterday afternoon, when during a trip to Alum Rock, he sustained a fracture of the right leg and was taken to the County Infirmary for treatment.

A Clear Case.

In the TIMES report of the Kasten case yesterday, the genial and brainy Godfrey is represented as testifying that Mrs. Kasten had at first mistaken him for Slauson of the County Bank, but afterwards apologized saying that he was a much better looking man than Slauson. After hearing this the jury acquitted the woman of the crime char
